

## We're the experts in tracing, locating and recovering stolen vehicles

**We understand the value of vehicles to agriculture. Remote farming land, limited surveillance, multiple storage sites, and open barn settings make these vehicles prime targets for thieves.**

We're offering the Gloucestershire agricultural community an exclusive discount of 12 months cover for just £140+VAT with fitting\*. You can extend it for £100 +VAT for additional years (reduced from £125 plus VAT) directly with AX Track at the end of the contract.

This offer is for commercial vehicles and machinery for landowners and farmers within Gloucestershire, however, AX Track will also protect your private vehicles at £300 +VAT for 12 months cover under this Police-led initiative\*

### Exclusive Agricultural Community Discount

To take advantage of this limited time offer\* use the discount code **GLOSPolice@AXTrack** for commercial vehicles or for private vehicles **GLOSPolice@AXTrack/private** before you checkout on the AX Track store, [track.ax-uk.com](http://track.ax-uk.com).

\*Home Office funding for this scheme has secured a limited number of AX Track devices which will be allocated by Gloucestershire Constabulary. This offer will last until all the devices have been purchased.

# AX Track technology: What are the benefits?

We're confident of our technology's functionality, design and performance. It's always evolving and is backed by our trusted team of vehicle recovery experts. Here are the benefits you can expect from AX Track technology:
